

G 38 P Li-Ion BATTERY-POWERED LAWNMOWER.

RELIABILITY. PRECISION. CONVENIENCE.

Benefits of the battery-powered lawnmower

[always ready]

No more need to buy petrol or prepare two-stroke mixtures.

[for your garden]

Compact and clean, perfect for homeowners with several areas of garden.

[quiet]

Use it whenever you want, without disturbing your neighbours.

[simple]

Extremely easy to use, no cables for unlimited movements.

[comfortable]

Low vibration and soft handles.

[ecological]

Zero emissions for total environmental respect.

[economical]

Minimum maintenance needs.

1 Removable safety key to prevent inadvertent starts during maintenance operations, when kids are around or when the tool is left unattended.

4 High performance brushless motor.

7 Optimal ergonomic setup thanks to the handlebar adjustment devices. Handlebar height can be adjusted in accordance with user preferences.

2 Full-bag indicator: shows when it's time to empty the grass-catcher.

5 Rigid grass catcher: quality guarantee.

8 Reinforced metal cutting height adjustment lever. 6 cutting height settings for all requirements. Facilitates cutting height adjustment, with height selection in a single operation.

3 Practical handle/grip for cutting height adjustment, transport and manoeuvring the lawnmower.

6 Easy storage and transport thanks to levers on handlebar.

9 Big diameter wide wheels for improved stability while working. Maximize the no-nonsense high performance looks of the machine.

Technical data

Compatible batteries	Charging time	No load blade speed	Deck	Motor type	Cutting width
BA 2.6 Ah/BA 4 Ah	90 min	3500 rpm	ABS	Brushless	38 cm
Propulsion	Cutting height	No. of settings	Grass catcher capacity	Wheels diameter	Weight without battery
push-type	20-70 mm	6 levels	35 l	150/210 mm	13.8 kg

BA 2.6 AH – BA 4 AH BATTERY AND BTC 36V BATTERY CHARGER.

JUST ONE BATTERY FOR ALL YOUR TOOLS.

[universal]

Compatible with all applications: chainsaw, hedgetrimmer, brushcutter and lawnmower.

[efficient]

High performance and constant power output for the full runtime of the battery.

[flexible]

Thanks to a smart recharge system, the batteries can be charged at any time.

[durable]

If the tool is not used for more than 60 days at a stretch, the batteries are drained automatically in order to guarantee optimal storage and the longest possible working life.

[clear]

Actual charge check system: keeps the user informed of the remaining battery charge so the work can be planned properly.

[BTC 36V battery charger]

For charging BA 2.6 Ah and BA 4 Ah batteries and keeping them in perfect condition. Use of the latest electronics means batteries are charged in complete safety to maximize their working life and minimize mains power consumption. The batteries feature a sturdy ABS body to protect them from accidental impact.

BA 2.6 Ah		
Charging time	Voltage	Current
90 min	36 V	2.6 Ah
Technology	Charge levels	Weight
Lithium ion cells	3 LEDs	1.2 kg

BA 4 Ah		
Charging time	Voltage	Current
95 min	36 V	4 Ah
Technology	Charge levels	Weight
Lithium ion cells	3 LEDs	1.3 kg
