

**BIO-FERTILISERS AND GROWTH PROMOTERS**

• GLS AMINOMIX	Growth enhancer consisting of protein hydrolysates of vegetative origin
• GLS-ENRICH	Soil conditioner consisting of 98% organic matter and 2 % microbial consortia
• SUPER-BIOLIFE	Growth enhancer consisting of microbial consortia and seaweed
• SUPERLIFE	Growth enhancer consisting of microbial consortia
• TRANSFORM	Natural plant extracts containing growth hormones, enzymes and amino acids
• VAMSTAR	Root promoter consisting of Vesicular Arbuscular Mycorrhiza
• WONDERLIFE - G	Growth enhancer and growth promotor in granule form consisting of microbial consortia, seaweed extract, plant hormones and amino acids.

**BIO-FUNGICIDE**      **PRODUCT DESCRIPTION**

• TRICHOLIFE	Consists of <i>Trichoderma viride</i> which controls fungal diseases and helps providing nutrients to growing plants
--------------	--

**BIO- INSECTICIDE**      **PRODUCT DESCRIPTION**

• NEEM-A-LIFE	Consists of <i>Azadirachtin</i> which controls a variety of larval, sucking and chewing insects
• MITE-NO-MITE	Plant extract of <i>Azadirachtin</i> and <i>Karanjin</i> which controls red spider mites and similar pests
• THRIP-THRASH	Plant extract <i>Azadirachtin</i> and <i>Karanjin</i> which controls thrips, aphids and other sucking insects

**WASTE MANAGEMENT PRODUCTS**      **PRODUCT DESCRIPTION**

• WONDERLIFE 1	Decomposing cultures formulation containing microbial consortia which help to remove smell besides toxicity and reduce chemical/ inorganic residues
• WONDERLIFE 2-3	Enrichment cultures formulation containing microbial consortia which help to enhance the efficacy and performance of the compost

# Seasol®

THE SEAWEED SOLUTION

Available in 1L, 20L

#### Application rates:

**2.5 mL per litre of water** Horticultural crops, vegetables, flowers / ornamentals, lawn

- Refined Liquid seaweed - (*Ascophyllum nodosum* & *Durvilleae Potatorum*).
- 100% organic liquid seaweed plant conditioner containing naturally occurring auxins, cytokinins, trace elements and vitamins.

# PowerFeed®

PLANT FOOD

Available in 1L, 20L

#### Application rates:

**2.5 mL per litre of water** Horticultural crops, vegetables, flowers / ornamentals, lawn

- Organically based fish fertiliser fortified with essential nutrients as well as humic acids.
- Rich source of amino acids, proteins, beneficial bacteria, trace elements and vitamins all needed for plants general health.
- **NPK: 14 - 1.4 - 9**

# NEW SOIL WETTER

Available in 1L, 20L

#### Application rates:

**2.5 mL per litre of water** Horticultural crops, vegetables, flowers / ornamentals, lawn

*Not intended for foliar application, additional irrigation is advisable for any application that covers turf or foliage*

- Blend of an environmentally safe soil wetter, with liquid humates and Seasol for longer lasting soil improvement.

#### Benefits:

- Improves water penetration in soils.
- Increases water-use efficiency.
- Maximises nutrient uptake.

# EARTHCARE CLC

Available in 1L, 20L

- Organic formulation of humic acid fortified with growth activators, amino acids, chelating agents, nitrogen, potassium and organic carbons.

#### Benefits:

- Stimulates and enhances the chemical reactions which render nutrients available and ready for plant uptake.

#### Application rates:

**2.5 mL per litre of water** Horticultural crops, vegetables, flowers / ornamentals, lawn
